BEST PRACTICE
WITH RAPID DEPLOYMENT

simplifying healthcare technology

Helping community hospitals successfully achieve meaningful use faster, leaner and meaner.

Current legislative mandates and standards requiring hospitals to implement new technology to achieve meaningful use have left many organizations facing a substantial business challenge. With limited budgets and minimal clinical, financial and IT resources, the odds for success are slim.

With our business tools in place, we will help your organization stay one step ahead for ACO decisions.

Leveraging its best practices pulled from nearly two decades of experience, ACHIEVE With Stoltenberg offers a best-of-breed plan focused solely on one goal: *To help community hospitals with limited and non-existent resources – funds, equipment, staff, software, and in-house expertise – achieve Meaningful Use by minimizing their obstacles and removing the risk.*

- Evidence Based
- Rapid Deployment
- Cost Effective
- Minimal Risk

It's simple. If you don't have the resources to get it done, we'll get it done for you.
Faster, simpler and more economical.

The Process

Stoltenberg's consultants evaluate solutions that match the needs of community hospitals through the process of:

- Utilizing evidence-based content with order sets and clinical documentation
- Employing a comprehensive team - experienced in implementing the systems
- Engaging the clinical and financial areas with a standards-driven process
- Adding the invaluable technologies, ASCEND (workflow, project management and application programming) with SHARE (a central location for all project documentation and communications) to see the status of the project at any given moment

The Solution

- Clinical Transformation Services
- Detailed Education Plan
- Comprehensive Staff Training

- ASCEND Methodology with SHARE
- Implementation Services
- Business Intelligence

Why Stoltenberg?

- 20 years of experience as the leading IT consulting firm
- Our dedicated team of professionals have been involved in 38 Soarian Clinical implementations across the country
- "Top-down" approach means everything is there on Day 1 of the implementation process
- Evidence-based content with embedded analytics assures compliance
- Guaranteed team of experienced, comprehensive professionals, a "well-oiled machine"
- Clinical and financial areas are leveraged using standards-driven processes

The Timeline

Implementation methodology spans approximately 6 months
